

# Possible EuroLat activities (subjective view)

Gunnar Bali (RQCD)

EuroLat may not be the best name

EuroLat

## Incomplete wish list

- ▶ Representing the lattice field theory (LFT) community and lobbying at EU and national levels for appropriate funding calls.
- ▶ Lobbying for long term storage elements with middleware that provides the necessary authentication/authorization.
- ▶ Coordinating representation of the community in all relevant committees.
- ▶ Liaising with HPC centres.
- ▶ Inform policy makers and funding agencies in a similar way as ECFA, NuPECC etc. do (on the national level in Germany: KHuK, KET etc.). (Bi-)annual community Town Meeting.
- ▶ Possibly defining a roadmap (white paper) every 5–10 years, projecting the problems that should be solved and the resources needed as a reference for funding and computer time applications and policy makers.
- ▶ Participation in strategic planning and procurement of hardware, ensuring that this is evaluated against benchmarks relevant for LFT (and many other) applications.
- ▶ Coordinating Lattice Practices and other training opportunities.
